

Ref. 1292

DEGRAS 200

Hot griddles degreaser.

Degreasing cleaner for griddles that are at a high temperature. It descales, dissolves and removes burnt fat on hot surfaces between 150 and 200 °C without splashing risk or harmful evaporation. It allows a quick cleaning between cooking tasks without waiting for the cool down of the surface, which improves the application times. Suitable for hard chrome or steel griddles.
