

Ref. 1330

SOFT CAPS

Micro encapsulated softener.

It's a concentrated fabric softener with encapsulated perfume in micro-pearl form.

It impregnates fabrics with fresh and long-lasting fragrances, released gradually by friction. It also gives treated garments a soft and fluffy feel. Its cationic character provides high deodorising power and inhibits electrostatic charges to facilitate flatwork ironing. The product is designed to be applied manually or with **PGS® Systems** dosing equipment. Available with eco-friendly **ECO SAFETY®** bag-in-box packaging for a safer application.
